The Great Sea Scrpent.

The British Banner has beaten the American flag, and has actually got dominion over SHIRT MANUFACTURER, the "tarnal snake" at last. The following extract from the log of the British barque Bansize of this monster of the deep:

On the 25th April, in lat. 12 deg. 7 m. E. lon. 93 deg. 52 m. S., felt a strong sensation, as if the ship were trembling; sent the second mate to see what was up. The latter called to me to go up the fore rizging and look over the bows. I did so, and saw an enormous screent shaking the bowsprit with his mouth. There was about thirty feet of the serpent out of the water, and I could see his tail in the water abaft of our stern; must have been at least three hundered feet long; was about the circumference of a very wide crinolino petticoat, with black back, shaggy manchorn on his forcheid, and large glaring eyes, placed rather near the nose, and jaws about eight feet long. He did not observe me, and continued shaking the bowsprit, and throwing the sea alongsale into a foam until the former came clear awa The serpent was powerful enough although the ship was earrying all sail, and going about six knots at the time he attacked us, to

when the bowsprit, with the jibboom sai's and rigging, went by the board, the monster swallowed the foretopmast staysail and flying jib with the greatest apparent ease; he also snappped the thickest of the rigging asunder like thread. He sheared off a little after this, and returned apparently to scratch himself against the side of the ship, making a most extraordinary noise, resembling that on board a steamer when the boilers are blowing off. A whale breached within a mile off the ship, at this time, and the scripent darted off after it like a flash of lightning—striking the vessel with its tail, and staving in all the starboard quarter galley. Saw no more of it, but caught a graph. foung one in the afternoon, and brought it on to

THE BALD AND GRAY.

Alany, since the great discovery of Prof. Wood, have attempted not only to initate his restorative, but profess to have discovered something that one and gone, being carried away by the wonderful suits of Prof. Wood's preparation, and have been orced to leave the field to its resistless-sway. It ad he following.

Bath, Maine, April 18th, 1e59.

Prof. O. J. Wood's Oct. Gents.—The letter I wrote on in 1850, concerning your valuable Hair Restorative, and which you have published in this vicinity, and elsowhere, hat given rise to numerous inquiries onehing the facts in the case. The inquires are, rist, is it a fact of my habitation and name, as stated in the commission of the facts in the case. The inquires are, rist, is it a fact of my habitation and name, as stated in the commission of the fact in the case. The inquires are, rist, is it a fact of my habitation and name, as stated in the commission of the fact of the same is true of all there in contained; third, does my hair is the continue to be a good order and of untural color? To all I can and do answer invariably yes. My hair is even better than in my stage of my life for forty years past, more soft, thritty and better colored, the same is true of my whiskers, and the only cause why it is not generally from, is that the substance is washed off by frequent ablution of the face, when if care were need by wiping the face in class connection with the whiskers, the same result will follow as the hair. I have been in the receipt of a great number of fetters from all parts of New England, asking me if my hair still centimes to be good; as there is so much fraud in the manufacture and sale of various compounds as well as this, it has, no doubt, been basely initiated and been used, not only without any good effect, hat to absedute injury. I have not used any of your Restorative of any ace unt for some months, and yet my hair is as good as ever, and hundreds have examined it with surprise, as I am now by years old and not a gray hair in so good as

results. I remain, dear sit, joints, A. C. RAYMOND.

Aaron's Bun, Ky., Nov. 39, 1-58.
Prof. O. J. Wood: Dear Sir:—I would certainly be defing you a great injustice not to make known to the world, the wonderful, as well as the unexpected result I have experienced from using ONE battle of your Hair Restorative. After using every kind of Kestoratives extunt, but without success, and finding my headnearly destitute of hair. I was fundly induced to try a battle of your Hair Restorative. Now, conder and justice compel me to announce to whoever non read this, that I now possess a new and leading growth of hair, which I pronounce richer and handsomer than the original was. I will therefore take occasion to recommend this invaluable remedy to ALL who may feel the necessity of it.
Respectfully yours,
Rev. S. ALLEN BLOCK.
P. S.—This testimonial of my approbation for your valuable medicine (18 you are are aware of) is missiviletted; but if you think it worthy a place among the rest, insertif you wish; if not, destroy and say nothing. Yours, &c., Rev. S. A.B.

A Specific for Hooping-Cough. A Specific for Hosping-Cough.

It is known by a few individuals in the counties of defferson. Shelby, and Oldham, that I have a remedy that effectually cures Hooping-Cough. If there are remedies in America or Europe that cures, it is not within my knowledge, (except the one I use.) Physicians tell the families they attend it can't be cured. I haven o doubt they are candid in what they state. To get the medicine in use, and but to sleep a deep-rooted preindice, the faculty are invited to get the needicine, and save the little innocents whom they attend, and tell them no more it cannot be cured. One dollar will pay for two bottles, which is a sufficiency for one child. This medicine can be conveyed to any part of the Fuited States by express for a mere trile.
